We take tedious, manual work and make it **tidy, connected and automated** — across any sector, for teams of one to two hundred and beyond. Technology is the enabler, never the starting point.

PROCESS & CHANGE

Tidy the work, make it stick

- Process improvement & redesign
- Digital transformation planning
- Business analysis & requirements
- Change management & adoption
- Staff technical orientation & training

SYSTEMS & AUTOMATION

Connect the tools and the people

- IT support & helpdesk
- Workflow automation & Power Automate
- Microsoft 365 & Copilot enablement
- AI assistants and practical AI adoption
- System integrations & selection
- Database migration: Oracle, SQL Server, Azure, AWS

REPORTING & DATA

Numbers you can act on

- Reporting clarity review
- Data mapping & analysis
- Dashboards & management information
- Reconciliation & data quality
- One source of truth

ALSO BROUGHT INTO ENGAGEMENTS

Product management & development • IT program and project management • Technical deployment • Requirements and vendor management

WHAT MAKES US DIFFERENT

- Vendor-neutral: we don't resell software or take commissions
- We work alongside your IT provider, or provide IT support and projects directly when you don't have one
- Read-only access first; documented and handed back
- Scoped and priced in writing before work starts
- A named consultant is accountable for every recommendation
- More than 15 years' combined founder experience across digital transformation, process automation, business systems and enterprise technology

WHO WE SERVE

Any sector, from a team of one to two hundred and beyond. If the business runs on people, processes and technology, the patterns repeat — commercial, nonprofit and public sector alike.

PLATFORMS WE WORK IN

Microsoft 365 Copilot Power Automate
Power BI SharePoint Azure AWS
Google Cloud Oracle Database SQL Server
